

TOFFIC MOHAMMED

Cloud & Software Engineering | AWS Certified Cloud Practitioner | Solutions Architect Associate (In Progress)

mtoffic8@gmail.com | +233 548 412 167 | LinkedIn | GitHub

PROFILE

Computer Science student at Kwame Nkrumah University of Science and Technology (KNUST), AWS re/Start graduate, and AWS Certified Cloud Practitioner currently pursuing the AWS Solutions Architect Associate certification. Founder and lead developer of PitchPlay GH, a football pitch booking and team-matchmaking platform built for the Ghanaian market, with hands-on experience across full-stack development, cloud deployment, and payment integrations. Currently gaining production DevOps experience as an intern at Springer Capital. Goal-driven toward a career as a cloud solutions architect building scalable infrastructure for global businesses.

TECH STACK

- Cloud & AWS: EC2, S3, IAM, VPC, Route 53, CloudFormation, AWS Config, GuardDuty, DynamoDB, AWS CLI, Cost Explorer & Billing tools, Session Manager
- Languages: JavaScript/TypeScript, Java, Python, C++, Bash
- Web & Frameworks: Next.js 14, React, Node.js, HTML, CSS, Tailwind CSS
- Databases: Supabase (PostgreSQL, SSR auth), MySQL, DynamoDB, SQLite
- DevOps & Tools: Docker, Microservices Architecture, REST APIs, Vercel, Git/GitHub, CI/CD basics
- Integrations: Paystack, Google Maps API
- Productivity: Figma, ClickUp, Microsoft Excel, Microsoft Word, Zoom, Microsoft Teams

CORE SKILLS

- Cloud Infrastructure & Deployment
- Full-Stack Web Development
- Microservices Architecture & API Integration
- Database Design & Authentication Systems
- Product Strategy & Startup Building
- Analytical Thinking & Problem Solving
- Project Coordination & Cross-Team Collaboration

PROJECTS

PitchPlay GH — Founder & Lead Developer | GitHub

- Designed and built a football pitch booking and team-matchmaking platform for the Ghanaian market from the ground up, addressing WhatsApp-based booking and Mobile Money payment fragmentation.
- Architected a five-role system (Player, Pitch Owner, Admin, Pitch Manager, Platform Assistant) with Next.js 14, Supabase (SSR auth), and Tailwind CSS, deployed on Vercel.
- Built slot booking with 7-minute holds, night surcharge pricing, and a Team-Up matchmaking pool with auto-expiry and credit conversion.
- Integrated Paystack for payments and Google Maps for location-based discovery; resolved complex auth issues including session cookie handling and middleware redirect loops.
- Built pitch manager and admin dashboards with block-period scheduling and real-time availability updates.
- Currently pursuing pre-seed funding via a SAFE structure, with active investor conversations and feedback on go-to-market and traction.

CodeAid — Developer Collaboration Platform | GitHub

- Built a platform enabling developers to ask programming questions and collaborate on solutions.
- Contributed to system architecture and development workflow using Git-based version control.

Ordo App — Application Project | GitHub

- Coordinated planning and feature development; structured product features and workflow, facilitating communication across the dev team.

AWS HANDS-ON EXPERIENCE

- Deployed and configured EC2 instances running Apache, with AWS CLI and Session Manager setup on Windows.
- Implemented S3 bucket policies and automated backup scripting with Bash.
- Studied and practiced IAM roles/policies, VPC networking, Route 53, CloudFormation, AWS Config, GuardDuty, and DynamoDB across Cloud Practitioner and Solutions Architect Associate exam domains.

EDUCATION

BSc Computer Science (In Progress) | Kwame Nkrumah University of Science and Technology (KNUST), Kumasi *Expected 2027*

WASSCE – General Science | Prempeh College, Kumasi *2015 – 2018*

WORK EXPERIENCE

DevOps Intern | Springer Capital, Remote *Jul 2026 – Present*

- Support CI/CD pipeline work and Linux systems administration as part of the Springer Capital x Acumen DevOps internship program.

Owner | Mtoffic Enterprise, Kumasi, Ghana *Present*

- Assisted students with international university applications and visa interview preparation.
- Managed customer relations, documentation, and payment processing.

LEADERSHIP & INVOLVEMENT

Campus Ambassador | Next Path Ghana (NPG) — KNUST *Present*

- Represent Next Path Ghana on campus, connecting students with the program's opportunities and resources.
- Help run hands-on cloud computing labs for university students as part of NPG's six-track tech education program.

Deputy Sports Committee Head | College of Science – KNUST *Oct 2021 – Jun 2022*

- Assisted in organizing sports events and coordinating student teams.

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS Certified Solutions Architect – Associate — In Progress
- AWS re/Start Program — Graduate
- AWS Educate — Introduction to Cloud 101
- Cloud Computing Fundamentals — IBM SkillsBuild
- Cybersecurity Course, Next Path Ghana — In Progress
- IT Professional Course, Coursera — 2022
